**YOLO-SOLANO AIR QUALITY MANAGEMENT DISTRICT  
AGRICULTURAL ENGINE REGISTRATION PROGRAM**

**Need Assistance? Please contact the District technical services staff and schedule an appointment for a free consultation to assist you in completing your registration application package. They can be reached at (530) 757-3650, or toll-free within the (916), (530) & (707) area codes at (800) 287-3650.**

**GENERAL INFORMATION**

On July 9, 2008, the YSAQMD Board of Directors adopted District Rule 11.3, Agricultural Engine Registrations which requires each engine (excluding mobile equipment such as tractors) greater than 50 hp used in an agricultural operation to obtain a registration. For existing engines, the applications are to be submitted by September 2, 2008. For engines installed after that, the applications are to be submitted prior to initial use.

The District will use the registration process to enforce the requirements of the Airborne Toxic Control Measure (ATCM) promulgated by the California Air Resources Board (ARB). For more information on the engine emission standards, please contact the District.

**INSTRUCTIONS FOR COMPLETING THE  
AGRICULTURAL ENGINE REGISTRATION APPLICATION FORM**

**1. TYPE OF APPLICATION:**

Check the first box for engines which are not currently registered, including existing engines as well as new engines you are going to purchase/install. In addition to this general form (AG1), also complete either form AG2 for stationary engines or AG3 and AG4 for portable engines.

Check the second box for transfer of ownership of engines which are already registered with the YSAQMD and specify the existing registration number. For these applications, you do not need to complete AG2 or AG3 (we already have this information), but complete AG4 to identify the location(s) the engine will operate.

**2. APPLICANT:** The agricultural registrations can be issued to the owner or the operator of the engine.

Whoever the registration is issued to will be responsible for complying with all applicable requirements. Please specify the name of the person, partnership, company, corporation, or agency to be named on and held responsible for the registration. The responsible official is an individual with the authority to certify that the source will comply with all District requirements and conditions set forth in a registration. Also, specify the main (or primary) site address for your operation. Many times, this will be the "home ranch".

**3. MAILING ADDRESS:** Specify the mailing address, if different then the primary site address.

**4. BILLING ADDRESS:** Specify the billing address, if different then the primary site address.

**5. PROCESSING FEE:** A separate fee is required for each engine and must be included at the time of submittal. The fee is based on the schedules in District Rule 4.1. Make checks payable to Yolo-Solano Air Quality Management District (YSAQMD).

**6. SIGNATURE:** This application must be signed by the responsible official. An original signature is required, no photocopies.
