FEES

A separate fee is required for each engine and must be included at the time of submittal. See instructions for details.
 Note: Annual renewal fees are required if the engine was not listed on our last renewal invoice (check your invoice or contact the District).

SIGNATURE

This application must be signed by the responsible official listed above. By signing you are indicating that all information contained in the application is true, accurate and complete to the best of your knowledge. Specific operating conditions (see page 2, item 2a) must be followed for the above modified registrations. The owner/operator is the responsible party for ensuring engines are operated in compliance with all operating conditions specified on each registration certificate. Signed applications may be transmitted by facsimile (fax) or electronic mail (email), and any such signature shall have the same legal effect as an original.

AGRICULTURAL ENGINE REGISTRATION PROGRAM

Need Assistance? Contact the District's Compliance staff at (530) 757-3650 and schedule an appointment for a free consultation to assist you in completing your registration application package.

GENERAL INFORMATION

On July 9, 2008, the YSAQMD Board of Directors adopted District Rule 11.3, Agricultural Engine Registrations which requires each engine (excluding mobile equipment such as tractors) greater than 50 HP used in an agricultural operation to obtain a registration. On December 8, 2010 the YSAQMD Board of Directors adopted amendments to Rule 11.3 which established two additional criteria for applicable agricultural engines, remote location and residency. These criteria in turn allowed the creation of two new registration classifications, Low use and Intermittent use.

The District will use the registration process to enforce the requirements of the Airborne Toxic Control Measure (ATCM) promulgated by the California Air Resources Board (ARB). For more information on the engine emission standards, please contact the District.

INSTRUCTIONS FOR COMPLETING THE AGRICULTURAL ENGINE REGISTRATION APPLICATION FORM

- 1. TYPE OF APPLICATION:** Check the first box for engines which are not currently registered, including existing engines as well as new engines you are going to purchase/install. In addition to this general form (AG1), also complete either form AG2 for stationary engines or AG3 and AG4 for portable engines.

Check the second box for transfer of ownership of engines which are already registered with the YSAQMD and specify the existing registration number. For these applications, you do not need to complete AG2 or AG3 (we already have this information), but complete AG4 to identify the location(s) the engine will operate.

- 2. APPLICANT:** The agricultural registrations can be issued to the owner or the operator of the engine. Whomever the registration is issued to will be responsible for complying with all applicable requirements. Specify the name of the person, partnership, company, corporation, or agency to be named on and held responsible for the registration. The responsible official is an individual with the authority to certify that the source will comply with all District requirements and conditions set forth in a registration. Also, specify the main (or primary) site address for the operation. Many times, this will be the "home ranch".
- 3. MAILING ADDRESS:** Specify the mailing address, if different then the primary site address.
- 4. BILLING ADDRESS:** Specify the billing address, if different then the primary site address.
- 5. PROCESSING FEE:** A separate fee is required for each engine and must be included at the time of submittal. Options and instructions for submittal of the application and payment (see Rule 4.1): 1) Mail with check or money order payable to: YSAQMD, 1947 Galileo Ct, Ste. 103; Davis, CA 95618; 2) pay by credit card (service fee applies) at www.ysaqmd.org/permits/make-a-payment/ and either email with payment confirmation to payments@ysaqmd.org or fax to (530) 757-3670; or 3) visit the District office and pay with check, money order or credit card.

Please note - for engines with a date of initial installation* prior to 9/2/2008, the processing fee covers the engine's operation until 12/31/2009. After that, an annual registration fee is assessed based on District Rule 11.3 and Rule 4.1. If an initial application is submitted after 12/31/2009 for an existing engine, a filing fee equal to two (2) hours at the current time and materials rate of Rule 4.1 shall be submitted with the application, however immediately after processing the application the District will send a supplemental bill for the subsequent back fees

For engines with a date of initial installation after 9/2/2008, the processing fee covers the engine for 12 months from installation, after which prorated annual registration fees are assessed up to the current registration year.

**Date of initial installation is the earlier of: the date which an engine is first operated after leaving the manufacturer or distributor; or January 1 of the next year after the model year of the engine.*

- 6. SIGNATURE:** This application must be signed by the responsible official. If paying by credit card signed application may be transmitted by facsimile (fax) or electronic mail (email), and any such signature shall have the same legal effect as an original.
