Date: January 13, 2021

Subject: Receive and Accept Report on Indemnification Required

Recommended Action

This is an informational report only.

Summary

At the August 11, 2010 meeting, the Board directed staff to require permit applicants to indemnify the District on a case-by-case basis when the APCO determined it would be appropriate and to report back to the Board on each specific case. This report is to notify the Board that the District is processing the following application(s), for which the APCO has determined it is appropriate to require indemnification. The source has been notified of this requirement:

- City of West Sacramento. ATCs C-20-161 and C-20-162 for installation of natural gas-fired boilers to operate within 1,000 feet of a school. Because the applications trigger a school notice.
