

Yolo-Solano Air Quality Management District
AGRICULTURAL ENGINE REGISTRATION APPLICATION
(Form AG1)

In addition to this general application, a separate engine supplemental form (AG2 or AG3) must be submitted for each engine operated by the applicant. Refer to the attached instructions for more detail. Applicant must submit their application with the correct application fee.

1 Type of Application

For transfers, list existing registration number below

2 Applicant Information

Applicant Name

Primary Site Address (including City, State, & Zip Code)

Do you have other YSAQMD Registrations?

Name & Title of Responsible Official

Phone #

Fax #

E-mail

3 Mailing Address (if same as above, check here and skip to #5)

Address (including City, State, & Zip Code)

4 Billing Address (if same as above, check here and skip to #5)

Address (including City, State, & Zip Code)

5 Fees

An application fee is due for each engine you are registering and/or transferring. Multiply the number of engines per the current fee as referenced in Rule 11.3 and 4.1. Follow the instructions or contact the District at (530) 757-3650 for assistance.

*Note: Existing engines may be subject to supplemental registration fees. See instructions for details. If supplemental fees are applicable, the District will issue an invoice for the balance due after evaluating the engine application.

6 Signature

This application must be signed by the responsible official listed above. By signing this document you are indicating that all information contained in this document and in any attachments are true, accurate, and complete to the best of your knowledge. If paying by credit card, the signed application may be transmitted via fax or email and any such signature shall have the same legal effect as an original.

Need Assistance? Contact the District's Compliance staff at (530) 757-3650 and schedule an appointment for a free consultation to assist you in completing your registration application package.

GENERAL INFORMATION

On July 9, 2008, the YSAQMD Board of Directors adopted District Rule 11.3, Agricultural Engine Registrations which requires each engine (excluding mobile equipment such as tractors) greater than 50 HP used in an agricultural operation to obtain a registration. On December 8, 2010 the YSAQMD Board of Directors adopted amendments to Rule 11.3 which established two additional criteria for applicable agricultural engines, remote location and residency. These criteria in turn allowed the creation of two new registration classifications, Low use and Intermittent use.

The District will use the registration process to enforce the requirements of the Airborne Toxic Control Measure (ATCM) promulgated by the California Air Resources Board (ARB). For more information on the engine emission standards, please contact the District.

INSTRUCTIONS

1. TYPE OF APPLICATION: Choose the option for engines which are not currently registered, including existing engines as well as new engines you are going to purchase/install. In addition to this general form (AG1), also complete either form AG2 for stationary engines or AG3 and AG4 for portable engines.

Choose the option for transfer of ownership of engines which are already registered with the YSAQMD and specify the existing registration number. For these applications, you do not need to complete AG2 or AG3 (we already have this information), but complete AG4 to identify the location(s) the engine will operate.

2. APPLICANT: The agricultural registrations can be issued to the owner or the operator of the engine. Whomever the registration is issued to will be responsible for complying with all applicable requirements. Specify the name of the person, partnership, company, corporation, or agency to be named on and held responsible for the registration. The responsible official is an individual with the authority to certify that the source will comply with all District requirements and conditions set forth in a registration. Also, specify the main (or primary) site address for the operation. Many times, this will be the "home ranch".

3. MAILING ADDRESS: Specify the mailing address, if different then the primary site address.

4. BILLING ADDRESS: Specify the billing address, if different then the primary site address.

5. PROCESSING FEE: A separate fee is required for each engine and must be included at the time of submittal. Options and instructions for submittal of the application and payment: 1) Mail with check or money order payable to: YSAQMD, 1947 Galileo Ct, Ste. 103; Davis, CA 95618; 2) Pay by credit card (service fee applies) at www.ysaqmd.org/permits/make-a-payment/ and email with payment confirmation to payments@ysaqmd.org or fax to (530) 757-3670; or 3) Visit the District office and pay with check, money order or credit card.

Note - if you are applying to register an existing engine, a filing fee equal to two (2) hours at the current time and materials rate of Rule 4.1 must be submitted with the application; however immediately after processing the application the District will send a supplemental bill for the applicable back fees (going back as far as 2010).

For transfer of ownership of existing registrations, the fee is equal to one (1) hour (see fee table at www.ysaqmd.org/wp-content/uploads/2020/06/Master-Fee-Schedule-2020-2021.pdf).

*Date of initial installation is the earlier of: the date which an engine is placed at a location within our District in order to be operated for the first time since delivery from the manufacturer or distributor; or for Tier 1 or Tier 2 certified engines, January 1 of the next year after the model year of the engine.

6. SIGNATURE: This application must be signed by the responsible official. If paying by credit card, signed application may be transmitted by fax or email, and any such signature shall have the same legal effect as an original.
