Supervisor Signature		Date:

Post-Inspection Photographs:

Note: Photographs will be kept in digital (.jpg) format and hard copy in the project file. Photos shall be printed in color and be no less than a quarter sheet of paper in size. The following are the minimum required photographs to be taken during the pre-inspection for off-road projects:

1. One Side
2. Equipment Serial Number or VIN Tag – Inside the vehicle or on the frame rail
3. Engine serial number and engine information, if available (make, model year, engine family) – either tag or stamp on the block
4. Odometer or Hour Meter
5. DOORS sticker (when applicable)
6. Any Modifications
