The Yolo-Solano Air Quality Management District (YSAQMD) will hold a public hearing to consider the adoption of the Sacramento Regional 2015 National Ambient Air Quality Standard (NAAQS) 8-Hour Ozone Attainment and Reasonable Further Progress Plan (Plan). The Plan geographically covers the Sacramento Federal Nonattainment Area (SFNA) which includes all of Sacramento and Yolo counties, and portions of Placer, El Dorado, Solano, and Sutter counties. Each air district in the SFNA is holding separate public hearings to adopt this Plan.

The Plan documents how the region is meeting requirements under the Clean Air Act in demonstrating reasonable further progress and attainment of the 2015 NAAQS of 70 parts of ozone per billion.

The YSAQMD Board of Directors will consider the adoption of the Plan during this public hearing. Copies of this notice, the Plan and its appendices can be accessed here:
