

YOLO-SOLANO
AIR QUALITY MANAGEMENT DISTRICT

Year-round internship!

PAID INTERNSHIP

MAKE A DIFFERENCE IN YOUR COMMUNITY!

Earn UCD internship credit hours
\$19.86-\$24.14/hr!

Located in Davis!

Exciting Work Environment!

Explore the *implementation* of innovative technologies.

Collaborate with *multidisciplinary* teams, including scientists and engineers, to address complex air quality challenges.

Analyze air emission data to determine *compliance* with applicable rules.

Conduct emissions surveys for use in planning and community impact *assessments*.

Assess the *environmental impact* of various industries and suggest strategies for improvement.

Flexible Schedule!

YOLO-SOLANO

AIR QUALITY MANAGEMENT DISTRICT

is a **special district** whose mission is to protect human health and property from the harmful effects of air pollution. We believe that **every person** has the right to clean air **every day**. We seek to achieve that goal in all of our work, from rulemaking to permitting, from enforcement to public education, and planning to monitoring.

Why Choose Us

The District's Paid Internship Program provides a dynamic and impactful experience for Engineering majors to develop **practical skills** in a field that plays a pivotal role in **environmental sustainability**. Be a part of **improving the quality of life** in your community.

Rules and Compliance

Our Board of Directors adopts rules intended to protect our clean air without imposing unnecessary burdens on local industry. The rules are enforced through the District's permitting and compliance programs.

Permits

The District issues permits for industrial and commercial projects in its jurisdiction that have the potential to emit air pollution.

Land Use

The District's planning staff contribute to environmental review for local projects that could impact air quality and assist with initiatives intended to improve clean transportation mode share.
