BOARD OF DIRECTORS

The Yolo-Solano Air Quality Management District Board of Directors

is comprised of **14 elected officials** made up of four Yolo County Supervisors, three Solano County Supervisors, and a city council representative from Davis, Dixon, Rio Vista, Vacaville, West Sacramento, Winters, and Woodland. The Board of Directors meets regularly to discuss and set policy on matters within the District's jurisdiction. The roles of Chair and Vice Chair undergo an annual rotation, with new directors selected to those positions during the last meeting of a given calendar year. This process helps ensure a **dynamic and inclusive** leadership structure.

Chair

Vice Chair

Sheila Allen
Yolo County

Tom Stallard
City of Woodland

Lucas Frerichs
Yolo County

Jim Ernest
City of Dixon

Norma Alcala
City of West Sacramento

Mitch Mashburn
Solano County

Edwin Okamura
City of Rio Vista

BUDGET OVERVIEW

The Proposed Budget represents an operating budget of **\$6,190,000** to support the District's core programs, planning efforts, and air monitoring. The incentive programs are expected to award a total of **\$5,119,322** to local projects this fiscal year. Also included are continued efforts to mitigate long term obligations through OPEB and Pension 115 Trust contributions. The Fiscal Year 2025/2026 Preliminary Budget is **balanced** and continues the District's efforts to improve and provide services, improve and protect air quality.

Consolidated Budget Summary			
	FY24/25 Adopted	FY24/25 Projected	FY25/26 Proposed
General Fund	\$5,250,403	\$5,975,926	\$4,809,296

REVENUE/EXPENSES PIE CHARTS

The Proposed Fiscal Year 2025/2026 revenue and expenses are summarized in the below charts, totaling **\$12,481,961**. Major sources of revenues are program fees, DMV registration fees, federal and state grants and property tax revenues. Salary and benefits, services, supplies, and grant programs are the major sources of expenditures.

The District's operating budget for this fiscal year totals **\$6,190,000** with the balance being restricted due to legislation and/or District Board policy. The Contingency Fund Reserve balance of **\$843,888**, approximately 12.5% of the operating budget, is available for use during a fiscal emergency with Board authorization.

BUDGET SUMMARY

The District's financial framework is structured around funds and account groups, each functioning as an independent accounting entity with a self-balancing set of accounts that encompass assets, liabilities, reserves, fund balances, revenues, and expenditures.

General Fund

The General Fund serves as the primary operating fund, facilitating the accounting and management of various fee programs, including Stationary Source, Asbestos, Agricultural Engines, Agricultural Burning, and Air Toxics, as well as direct grants from CARB and pass-through grants from the U.S. EPA. Targeted Airshed Grants are also incorporated within this segment of the budget, supporting personnel engaged in these programs.

Revenue Highlights:

- On April 9, 2025, the Board approved a 3.8% cost recovery fee adjustment, impacting several programs, including the Stationary Source Program, Agricultural Engine Registration Program, Hearing Board Fees, and Asbestos Program Fees. The adjustment is based on the California Consumer Price Index (CPI) for April-to-April (2023–2024).
- Stationary Source grants are projected to increase by \$141,748 due to a rise in renewal applications.
- The air toxics fees decreased by \$242,500 following a one-time increase in FY2024/25. As a result, we are now aligned with historical trends observed in FY2023/24 and prior years.
- General Grant Revenue declined by \$298,771 due to an anticipated reduction in TAG 2 funding and the conclusion of the Woodsmoke Heat Pump program. It is important to note that grant funding is inherently variable, as it is contingent on state and federal budget allocations.
- The Woodsmoke Heat Pump Replacement Grant ended FY2024/25. However, similar incentives will continue through the TAG 1 Grant, benefiting Yolo and Solano residents.

Expenditure Highlights:

- **Salaries & Benefits:** Following Board approval of the new MOU with the YSAQMD Employee Association in December 2023, a 3.8% cost-of-living adjustment (COLA) will apply to all employees. The resulting \$318,182 increase includes merit-based adjustments, payroll taxes, and applicable benefits.
- **Actuarially Determined Contribution (ADC):** The District will transfer \$199,658 to the OPEB CalPERS Trust, covering annual obligations. Disbursements will be requested at year-end to fund monthly retiree premiums, excluding pay-as-you-go costs from this line item.
- **Services & Supplies:** A projected increase of \$76,607, primarily due to expenses related to the implementation of a new database and upgrades to the internet-based phone system.
- **Equipment:** The District plans to sell and acquire one fleet vehicle to support air monitoring and inspections.

Mobile Source DMV AB 2766

This restricted fund tracks revenue collected by the Department of Motor Vehicles (DMV), which provides \$4 per registered vehicle within the District's jurisdiction. The funds support staff operations in mobile source programs, compliance with the California Clean Air Act, and grant funding for the Clean Air Funds Program.

Revenue Highlights:

- DMV fee revenue is projected to remain stable, with an expected revenue of \$1,349,641, reflecting an increase of approximately \$155,000.

Expenditure Highlights:

- Salaries & Benefits are expected to increase by \$49,318, influenced by salary and benefit adjustments under the new MOU, including a 3.8% COLA.
- Funding for Clean Air Fund grants is projected at \$131,700.

Mobile Source DMV AB 923

This restricted fund accounts for revenues derived from the DMV's collection of \$2 per registered vehicle within the District's jurisdiction. These funds provide additional financial support for programs that mitigate motor vehicle emissions under the California Clean Air Act.

Revenue Highlights:

- Revenue is expected to increase by approximately \$73,000, based on 2024/25 actuals as of April 30, 2025.

Expenditure Highlights:

- The District remains committed to school bus replacement efforts, allocating \$921,653 in grants for 2025/26.

Solano County Property Tax

The Solano County Property Tax Fund is a restricted account that includes property tax apportionments and Redevelopment Agency (RDA) statutory pass-through funding. Revenue received from Solano County is allocated to support the Clean Air Funds Program.

Revenue Highlights:

- The FY 2025/26 budget projects revenue of \$728,682, with no additional fund balance incorporated in this estimate.

Expenditure Highlights:

- The proposed budget includes \$307,300 in Clean Air Funds expenditures for FY 2025/26.

FARMER Grant Program

The Funding Agricultural Replacement Measures for Emission Reductions (FARMER) Program supports incentive-based funding for qualified agricultural equipment replacements. The District received additional funding for this program in FY 2024/25.

Revenue Highlights:

- No FARMER funding was received in 2024/25, and no additional funding is anticipated for 2025/26.

Expenditure Highlights:

- Approximately \$509,000 is projected for expenditure in 2025/26 to sustain program activities.

Carl Moyer Grant Program

The Carl Moyer Grant Program provides funding to reduce emissions from heavy-duty engines beyond regulatory requirements. The District also manages Moyer State Reserve funds, which support engine repowering, vehicle replacements, retrofits, and infrastructure projects to facilitate California's transition to zero-emission technology.

Revenue Highlights:

- Combined revenue for 2025/26 is projected at \$1,180,173, with \$947,392 from the Moyer Program and \$232,781 from the Moyer State Reserve.

Expenditure Highlights:

- Due to the significant administrative workload associated with this program, interfund administrative transfer expenditures are estimated at \$177,026.
- Program grants disbursed are expected to total \$1,548,937, supporting both Moyer and Moyer SR-funded projects.

Community Air Protection Program (CAPP)

The Community Air Protection Program (CAPP) administers AB 617 (2017) incentive funds, supporting community-identified emission reduction projects. The program prioritizes disadvantaged and low-income communities, funding Carl Moyer-eligible projects and other efforts to mitigate air pollution impacts.

Revenue Highlights:

- The District anticipates receiving \$1,154,836 in program funding for 2025/26, along with \$29,491 in projected interest earnings.

Expenditure Highlights:

- Total anticipated program grant expenditures amount to \$1,493,402, with an estimated interfund administrative transfer expenditure of \$57,742.

COST RECOVERY BY PROGRAM

Cost recovery is calculated for specific programs operated by the District. The methodology was updated in fiscal year 2023/2024 to reflect updated position allocation, grants received, and other changes. The revenue for each program is added to the grant funding received for each special program. The District estimates the time spent by employees in each program and calculates a percentage of salaries and benefits for each program. A percentage of services and supplies from the general fund is allocated to each of these programs as well. Salary and benefits are adjusted by interfund transfer from the AB 923, Solano Property Tax, FARMER, Moyer and CAPP programs to account for employees working in those programs. Services and supplies are adjusted for any pass-through grants funded out of the professional services account.

The District Board adopted a **cost recovery goal of 90%** for the Stationary Source program. Any shortfall in program cost recovery is made up through AB 2766 DMV fees (for activities that meet the California Clean Air Act), mutual settlement revenue and miscellaneous sources of income.

	Projected Cost Recovery By Program FY 2024/2025				
	Stationary Source	Air Toxics Hotspot	Agricultural Burning	Asbestos	Agricultural Engines
Expense Percentage	83%	1%	5%	6%	4%
Revenue	\$2,393,024	\$290,000	\$78,837	\$156,000	\$101,5230
Grants	\$267,272	\$1,268	\$20,631	\$5,410	\$3,777
Total	\$2,660,296	\$291,268	\$99,468	\$161,410	\$105,300
Salaries & Benefits	\$2,579,320	\$50,327	\$163,987	\$214,789	\$149,937
Services & Supplies	\$531,535	\$299,400	\$30,629	\$40,118	\$28,005
Total	\$3,110,856	\$349,727	\$194,616	\$254,907	\$177,942
Cost Recovery Percentage	86%	83%	51%	63%	59%
1 The Subvention Grant is divided in the programs based on expense percentage. Stationary source grants include Oil & Gas, EPA 105, AB 197 and 50% of AB617. Prescribed fire included in ag burning.					
2 Reduced by the intrafund transfers from AB923, Solano Property Tax, FARMER, Moyer, and CAPP.					
3 Reduced by any pass through grant amounts in Specialized Services.					

The proposed budget includes a cost recovery in the stationary source program of **73%**. Cost recovery for the other programs range between **50% and 75%**, which represents a steady but conservative increase over past years. This proposed cost recovery includes the **3.8% increase** to the fee schedule approved by the Board on April 9, 2025.

Fully Burdened Rate

To ensure accurate cost recovery and financial sustainability, this budget includes the **fully burdened rate** for accounting and administrative functions within the district. The fully burdened rate accounts for **direct labor costs, employer-paid benefits, payroll taxes, and overhead expenses** associated with financial management and grant administration.

The district will maintain both a **District-Wide Fully Burdened Rate**, which aggregates total costs across all employees, and a **Per-Employee Fully Burdened Rate**, allowing for more precise allocation of administrative expenses related to grant reimbursements. This approach ensures flexibility in financial planning and enhances the ability to charge administrative hours accurately to grants such as Moyer, FARMER, CAPP, Mobile Sources, Solano Property Tax, and other incentive and implementation programs.

The fully burdened rate will be reviewed and updated annually as part of the district's budget process to reflect changes in salaries, benefits, overhead costs, and operational expenses. This ensures the rate remains aligned with financial planning objectives, prevents discrepancies, and maintains transparency in budget allocations.

By adopting this approach, the district **strengthens its financial integrity**, ensuring that administrative costs are fully accounted for, allowing for **better resource allocation** and **long-term fiscal sustainability**.

 Fully Burdened Rate FY 2025/2026		
Position	Employee Step	Fully Burdened Rate/Hour
Administrative Assistant	Step C	\$139.76

FUND BALANCE ALLOCATION POLICY

Purpose

The purpose of this Fund Balance Allocation Policy is to establish guidelines for the allocation and management of the District’s unrestricted fund balance to ensure financial stability, mitigate risk, and support long-term sustainability. The District maintains Fund Balance allocations to address future liabilities, operational needs, and unforeseen expenditures while reinforcing its commitment to public service and environmental stewardship.

Appropriate Levels of Fund Balance

Maintaining adequate fund balance and reserves is a critical aspect of long-term financial planning, ensuring the District’s ability to mitigate current and future risks, such as revenue shortfalls and unforeseen expenditures.

The primary objective of the General Reserve Allocation Policy is to provide financial readiness for contingencies, including economic uncertainty, emergencies, natural disasters, and potential large-scale expenditures. Additionally, the policy ensures resources are available for special projects that support the District’s mission.

Fund Balance Target Levels

The Government Finance Officers Association (GFOA) recommends that general-purpose governments maintain a minimum fund balance equivalent to two months of operating revenues or expenditures.

In 2004, the District Board established a policy requiring a minimum fund balance of 10% of annual operating expenses from the General Fund and Mobile Source DMV AB 2766 Fund. For FY 2025/26, we project to have a \$4,533,205 of fund balance, 67% of our budgeted annual operating expenses for General and AB2766 Funds.

Additionally, the policy mandates maintaining at least 5% in contingency reserves for both the General Fund and the AB 2766 Fund. For FY 2025/26, the District proposes increasing the Contingency Reserve to 12.5% to further strengthen financial stability and ensure greater resilience against unforeseen fiscal challenges.

Since contingency accounts fluctuate annually, maintaining an appropriate level of reserve funding remains a priority in long-range planning. While the GFOA recommendation provides a useful baseline, each agency should assess fund balance requirements based on local risks, defined as the probability and magnitude of financial losses or disruptions.

Fund Balance and Operating Expenditures			
Fiscal Year	Fund Balance	Operating Expenditures	Ratio
2021/2022	\$2,916,163	\$5,068,056	58%
2022/2023	\$4,223,940	\$5,057,155	84%
2023/2024	\$5,019,002	\$6,203,995	81%
3 Year Average	\$4,053,035	\$5,443,069	74%
2024/2025	\$5,094,311	\$6,128,685	83%
Projected 2025/2026	\$4,533,205	\$6,751,106	67%

FUND BALANCE CLASSIFICATIONS

To comply with Government Accounting Standards Board (GASB) Statement No. 54, the District classifies its fund balances under the following categories:

Restricted Funds

These funds must be used for specific purposes as dictated by external regulations, laws, or grant agreements. They are legally bound and cannot be repurposed without formal authorization.

- Includes revenues received under AB 2766, AB 923, Solano County Property Tax, FARMER, Moyer, and CAPP.
- These funds are legally constrained for specific purposes based on external regulations, enabling legislation, or contractual agreements.

Assigned Funds

These are resources intended for a specific use but not formally restricted. They are set aside by management and Board action for a future purpose, like planned projects or upcoming expenditures.

- Use of these Funds requires formal Board action via the budget adoption process or budget amendments.
- Encumbrances are authorized at the staff level, under the oversight of the Administrative Services Manager.
- All encumbrances are tied to grant-funded initiatives.

Unassigned Funds

The most flexible category, representing resources not restricted, committed, or assigned. These funds are available for any general use and can help cover unexpected expenses or budget shortfalls.

- Uses of these funds do not require formal Board approval.

Committed Funds

These funds have been designated for a specific purpose by board action.

- Unlike assigned funds, these funds have self-imposed limitations, requiring formal Board approval for repurposing.

Non-Spendable Funds

Refer to financial resources that cannot be spent due to legal, contractual, or practical restrictions. These funds are typically tied up in assets or obligations that prevent their immediate use. Common examples include:

- Prepaid Expenses – Funds allocated for future expenses that have already been paid and cannot be freely used for other purposes.
- Long-Term Loans & Receivables – Funds that exist as outstanding amounts expected to be collected over time.

FUND BALANCE ALLOCATION

To achieve fiscal responsibility and financial resilience, the District will allocate unassigned Fund Balance in the following categories:

Other Post-Employment Benefits (OPEB) Reserve

- Funds set aside for future OPEB obligations, including healthcare benefits for retirees.
- The annual contribution will align with the Actuarially Determined Contribution (ADC) to ensure funding adequacy.

Equipment Replacement Reserve

- Dedicated funding for air monitoring systems, fleet vehicles, and technology upgrades necessary for regulatory compliance and operational efficiency.
- Reserve levels will be evaluated periodically to account for depreciation and equipment life cycles.

Leave Liability Reserve

- Funding to cover accrued employee leave balances, including vacation and sick leave liabilities.
- Ensures the District can meet obligations upon employee separation or retirement.

Public Education Reserve

- Supports community outreach, education programs, and environmental awareness initiatives related to air quality and pollution reduction.
- Funds may be used for public workshops, digital campaigns, and school engagement efforts.

Contingency Reserve

- Maintains funding for unexpected expenses, such as economic downturns, natural disasters, or emergencies affecting operations.
- Reserve levels will be reviewed annually based on projected risks and fiscal conditions.

Legal Support Reserve

- Funds allocated for legal support, including matters related to regulatory compliance, enforcement actions, and policy development.
- This support plays a crucial role in interpreting laws, regulations, and policies governing air quality and environmental protection.

PARS Pension Prefunding Reserve

- Contributions to the Public Agency Retirement Services (PARS) trust, supporting long-term pension stability.
- Allocations will be based on actuarial assessments and funding strategies to reduce pension liabilities over time.

Fund Balance Monitoring and Review

- Fund balances and funding levels will be reviewed annually as part of the budget process.
- Adjustments will be made based on economic conditions, program needs, and actuarial evaluations.
- The District will maintain transparency in fund balance allocations through financial reporting to the Board and the public.

Fund Balance Allocations		
Fund Balance:		\$3,972,099
OPEB Reserve		\$998,290
Equipment Replacements Reserve		\$667,666
Leave Liability Reserve		\$356,809
Public Education Program Reserve		\$100,000
Contingency Reserve		\$843,888
Legal Support Reserve		\$200,000
PARS Reserve		\$772,430
Total Allocated		\$3,939,083
Unallocated Fund Balance		\$33,016

PENSION PLAN AND LONG-TERM FUNDING STRATEGY

District employees participate in a multiple-employer public employee defined benefit pension plan administered by CalPERS (California Public Employees' Retirement System). CalPERS serves as both a common investment vehicle and administrative agent for participating employers.

Pension Plan Overview

Benefit provisions are established under state statute and may be modified by District resolution. CalPERS offers retirement and disability benefits to employees and their beneficiaries based on credited years of service (equivalent to one year of full-time employment). The District follows two pension formulas:

- 2% at 55 for existing "classic" members.
- 2% at 62 for new members under the Public Employees' Pension Reform Act (PEPRA).

Cost-of-living adjustments (COLA) are applied per the guidelines in the Public Employees' Retirement Law (PERL).

Employer Contribution Rates & Funding Requirements

Under Section 20814(c) of PERL, employer contribution rates for all public agencies are actuarially determined annually, effective July 1st of each year following notification of rate changes.

The total plan contributions are calculated through the CalPERS annual actuarial valuation process, taking into account:

- The District's allocated share of the risk pool's cost of benefits earned by employees.
- Any unfunded accrued liability (UAL) within the miscellaneous risk pool.
- The difference between the actuarially determined rate and the employee contribution rate, which must be covered by the employer.

Employee contribution rates are as follows:

- Classic members: 7% of annual pay.
- PEPRA members: 7.75% of annual pay.

PARS Pension Trust & Long-Term Obligation Strategy

To strengthen long-term pension funding, the Board authorized the establishment of a pension trust with Public Agency Retirement Services (PARS) in FY 2022/23, officially funded in February 2023.

For FY 2025/26, District staff recommends additional contributions to the PARS Trust, as approved by the Board, in alignment with the District's ongoing efforts to address pension obligations proactively.

PARS Pension Trust Account Summary as of March 31, 2025	
Beginning Balance	\$865,175.26
Contributions	\$0.00
Earnings	\$36,756.29
Expense	\$3,953.19
Ending Balance	\$897,978.36

Actuarially Determined Contribution (ADC) and OPEB Funding

The District contributes the Actuarially Determined Contribution (ADC) annually to ensure adequate funding for Other Post-Employment Benefits (OPEB) obligations. The California Employers' Retiree Benefit Trust (CERBT) requires biennial actuarial valuations to assess the District's OPEB liabilities.

Contributions to the CERBT by Fiscal Year						
2012-2019	2019/2020	2020/2021	2021/2022	2022/2023	2023/2024	2024/2025
\$1,108,400	\$239,618	\$199,045	\$206,052	\$124,725	\$128,121	\$122,812
Future ADC Based on August 2024 report						
2025/2026						
\$190,738						

The most recent actuarial valuation identified an increase in the ADC from FY 2024/25 to FY 2025/26, attributed to several factors, including:

- Updated mortality projections, reflecting revised demographic assumptions.
- Excise tax implications under the Affordable Care Act (ACA).
- Findings from the CalPERS Experience Study, which impact pension and benefits forecasting.
- Implied Subsidy adjustments for community-rated plans under PEMHCA (Public Employees' Medical & Hospital Care Act).

In FY 2024/25, the Board approved a request to disburse monthly pay-as-you-go retiree health benefit costs directly from the CERBT trust, resulting in lower OPEB expenses for the fiscal year.

Despite this reduction, the District remains committed to ongoing contributions to CERBT and will re-evaluate its funding strategy in the next fiscal cycle.

CERBT Account Summary as of March 31, 2025	
Beginning Balance	\$2,417,582.63
Contributions	\$0.00
Earnings	\$120,818.89
Expense	\$1,432.59
Ending Balance	\$2,536,968.93
